

## Lecture 6: Chain-of-Thought for Clinical Reasoning

### Part 1

#### Reasoning Fundamentals

---

- Clinical Reasoning Process
- Diagnostic Reasoning Chains
- Zero-Shot CoT Medical
- Few-Shot CoT Examples
- Self-Consistency Voting
- Reasoning Path Selection
- Medical Knowledge Integration

### Part 2

#### Advanced CoT Methods

---

- Tree of Thoughts Medical
- Graph of Thoughts
- Differential Diagnosis Trees
- Bayesian Reasoning Integration
- Uncertainty Propagation
- Counterfactual Reasoning

### Part 3

#### Clinical Applications

---

- Emergency Triage CoT
- Treatment Planning Chains
- Drug Interaction Reasoning
- Lab Result Interpretation
- Clinical Note Generation
- Error Analysis Patterns
- Reasoning Verification
- Performance Comparison
- Case Studies Analysis
- Hands-on Implementation
- Best Practices Guidelines
