

## Follow-Up Care Coordination

### Appointment Scheduling

---

- Follow-up Schedule
  - Automatic Booking
  - Reminders
  - Notification Settings
- 

Automatically manages follow-up appointment schedules according to patient treatment plans and prevents no-shows through appointment reminders.

### Test Follow-up

---

- Result Verification
  - Additional Testing
  - Abnormal Value Alerts
  - Trend Analysis
- 

Tracks test results, sends immediate alerts when abnormal values are detected, and analyzes long-term health trends.

### Care Transition

---

- Discharge Planning
  - Referral Management
  - Inter-department Coordination
  - Continuity Maintenance
- 

Ensures continuity of care after discharge and supports seamless information sharing and referral management with other departments or external healthcare facilities.
